

## Response to Intervention Framework

	% of Students	Person delivering intervention	Number of students in group	Frequency of meeting	Data collection frequency	Examples of interventions
Tier 1	80%	General classroom	Entire class	According to needs of student	3 universal screening tests	Flexible small group learning in the classroom
Tier 2	15%	Trained and supervised personnel- can be classroom teacher or specialist	Small groups of 2-5 students (3 is optimal)	Interventions occur 8-12 weeks- some resources indicate meeting 3-4 sessions per week each lasting 30-60 min.	Progress monitor weekly or up to 3 times per week -other sources noted every 4-6 weeks for prog. mont.	Research, scientifically based programs- see attached
Tier 3	5%	May include special education teacher	Small groups 1-3 students, 1-1 preferred	Intervention much longer than 10-12 weeks, frequency based on need	Progress monitoring continuous	May include program such as the Wilson Program- Replacement curriculum
